

EGD INSTRUCTIONS

- You may not have anything to eat or drink after midnight the night before the procedure.
- You must have someone with you to drive you home from the procedure because you are given sedation. If you arrive to the procedure without someone with you, your procedure will be cancelled.
- If you are diabetic, please do not take your diabetes medications in the morning prior to your procedure. You may bring them with you and take them afterwards.
- Please do not discontinue any medications, except for your diabetic medications as stated above.
- You may take your regular medications as directed with a small sip of water the day of the procedure.
- If you have any questions, please contact our office.
